Paul,

I approve the 1-page attached SAP regarding the sampling of the bed of gravel and sand that is adjacent to the NWOD box culvert crossing. It utilizes the existing site SAP/QAPP and therefore I see no concerns.

Kathy

Subject: NWOD - Sampling SAP at 2300 North - for EPA reveiw and approval

Kathy and Liz, attached is a one-page sampling plan and figure for testing the sand found about 50 ft. upstream and downstream of the 2300 North Box Culvert, as well as within the box culvert. The sampling will be consistent with the Canal Bottom Confirmation Sampling set forth in the SAP/QAPP.

Kathy, once we receive your approval we will complete the sampling. Our intent is to get this area resolved prior to initiating construction.

Let me know if you have any questions or comments
